## **GW 42J REBAR BENDING MACHINE**

Dear Sir/Ma'am

Greetings From TOPALL IMPEX!

Our company is quality approved manufacturer, supplier and exporter of Rebar Bending Machines. The most demanding model has a long run history of serving the construction industry, residential, Commercial or infrastructure projects. This superior quality machine uses simple mechanical gears to generate required results. The electrical panel provides fully automatic functions where the operator can choose to bend an angle. The brake motor replaces normal motor to provide long life to the electric panel.

Following are the Product Features, Specifications, Real Photos and Youtube Video Links.

### **FEATURES:**

- Easy Bending platform.
- Easy installation.
- User friendly operation.
- Most sought after model.
- Total Maintenance Free Machine.
- Heavy duty model.
- Tampered mandrel set
